Dear Sirs,

**We would like to introduce BOSTON CONTRACTING W.L.L** that provides quality resources specialized in industrial and projects development, support, instrumentation, and maintenance services. Several of our services include but are not limited to construction, Civil, Mechanical, Electrical & Instrumentation.

Since the start of our company in Bahrain, we have experienced ongoing success and rapid growth. Both are testament to our company's dedication to provide the best services to our clients. Treating them as partners, rather than clients, allows us to look at the various projects with an added dose of dedication and perseverance.

Whether it's a new construction, renovation, expansion or maintenance, our team of highly qualified, trained, and certified personnel can build and complete projects to your specification and on schedule. We are dedicated to providing the best service to our clients. Always looking to implement new innovations while staying on course and working in a cost-efficient manner that is beneficial to all parties.

**BOSTON CONTRACTING** delivers quality in every aspect of its work, ensuring that project deadlines are met partly due to the fact that we have a highly knowledgeable team that includes, project managers, project engineers, Supervisors, technicians, and skilled workforce.

The workforce comprises Civil, Mechanical, and electrical engineers, technicians, riggers, crane & other heavy machine operators and drivers with extensive experience in project planning and implementation in their respective fields. As a result, we efficiently deliver the highest quality of services to our clients while meeting high levels of success simultaneously.

We also have an infrastructure and own a variety of types of equipment and tools in a reasonable quantity by which we can meet the needs of projects and demand of our clients.

A long list of clients already know BOSTON CONTRACTING is an ally they can count on for everything from routine industrial support to innovative new projects. Ready to see what we can do for you?

We look forward to working with you as your competent, reliable partner, ensuring your company needs, demands and requirements are met.

With best wishes,

MANAGING DIRECTOR,  
BOSTON ENGINEERING.

## INTRODUCTION

BOSTON CONTRACTING Is providing quality services specialized in the fields of Industrial Support Services such as Construction of Civil, Mechanical, Electrical and Instrumentation & Communication. The Company is registered in the Kingdom of Bahrain.

We at BOSTON CONTRACTING are equipped with technical and organizational efficiencies needed to help construction companies is not excluding other companies that could want support from BOSTON CONTRACTING to fulfil their ambitious electro-mechanical and infrastructure engineering requirements.

With our workforce including, project managers, assistant managers, project coordinators, senior engineers, supervisor & technicians, BOSTON CONTRACTING flow instils quality in every aspect of its work with a meticulous approach to project planning, BOSTON CONTRACTING ensures that all projects are completed on time with quality.

## VISION

To be the best and most respected industrial service provider in the industry striving to reflect the highest ethical and professional standards that can deliver a world-class customer experience to clients with our innovation concepts.

## MISSION

To pursue excellence in all operations by improving quality standards and procedures and developing competitive people that can best render a world-class service to clients. To offer a complete range of services to help our clients maintain a competitive edge in their respective markets.

## SAFETY POLICY

Our goal is to take safety to ahead of Zero by preventing even one accident from occurring. We put the personal health and safety of our employees first wherever they are. For us, safety is more than a policy manual or a training video; it's how we do business and it's how we live. Our people are our greatest asset and the basis for our success. We believe that we owe it to our employees to help keep them and their families, communities, our clients

and our contractors healthy and happy. Our occupational, health and safety management system is a continuous cycle of planning, implementing and review of practices and procedures aimed at minimizing health and safety risks. Our employees have received many certificates of appreciation and awards of excellence for safe man hours and performance from our client

## QUALITY POLICY

We understand the value of human life and sustainable development for healthy growth of a community. BOSTON CONTRACTING's QHSE program ensures these goals by exercising zero tolerance for errors in implementation of the best Industrial QHSE practices. These are supplement with incentives, training, process control, and deployment of most effective time tested quality Improvement tools.

Our strategy covers built around plan, do, check and act (PDCA) and is reflected in our systems appreciating following key elements:

- Provision of a framework for the setting of QHSE Goals and performance objectives.
- Monitoring, evaluating and continually improving upon our QHSE performance through operational standards, training, assessments and audits.
- Making customers, contractors, and business partners familiar with our QHSE system and creating awareness on how their actions can influence QHSE performance.
- Making QHSE a part of all product development projects.
- Making ourselves, aware of the global industrial initiatives and collecting feedback from our stakeholders for taking improvement initiatives.

# OUR SERVICES

## CIVIL WORKS

- Excavation.
- Compaction.
- Levelling.
- Blinding Concrete.
- Steel Reinforcement.
- Concrete Curing.
- Concrete and concrete test.
- Backfilling and soil test.
- Architectural & Finishing
- Tiles and Gypsum
- All types of Civil Design works.
- 3-D Modelling.
- Painting

## **MECHANICAL WORKS**

### **Construction, Maintenance & Shutdown Projects**

- PIPING (METALIC /NON-METALIC)
- GRP PIPING (GRP/FRP) -DN25 TO DN3000 mm.  
SEA WATER INTAKE SYSTEM,  
CIRCULATING WATER SYSTEM  
CLOSED COOLING WATER SYSTEM
- STRUCTURE & COOLING TOWER STRUCTURE -Fabrication and installation.
- STATIC & ROTATING EQUIPMENT
- EQUIPMNET -Factory equipment installation.
- HDPE PIPING
- HYDRO TEST

## ELECTRICAL

- Installation, Termination, Testing and Commissioning of LV & HV switchgears, AC & DC UPS systems, HV & LV Transformers, Motors, Diesel Generators, Distribution Panels, HVAC units, water pumps etc.
- Electrical Equipment's FAT like Diesel generator, HV switch board, LV switch board, AC/DC UPS system, HV/LV Transformer etc.
- Laying of HV, MV, LV and Control cables from field Equipment's to Sub stations and DCS systems. IR and continuity test of LV and Control cables and HI-POT test of MV and HV cables.
- Glanding and Termination of HV, MV, LV and Control cables. Jointing of all kinds of power cables with using RAYCHEM / 3M jointing systems
- Installation, termination, testing & commissioning of Temporary / Permanent Cathode protection (TCP/PCP) system in Petroleum/ Gas Pipeline, Power plant, Petrochemical plant and Wessel's etc.

## ELECTRICAL

- Heat tracing system installation, testing, commissioning and related panels, Junction boxes, cable glanding termination
- Lightening protection system installation & commissioning in substation, control building, Wessel, workshop shed, etc.
- Installation, testing commissioning of Earthing system of OIL, GAS & ENERGY industry.
- Indoor / Outdoor Lighting system, Street lighting pole, High Mast tower erection and its (HMT) cable pulling, Glanding and termination and testing & commissioning
- ROXTEC / BRATTBERG Multi cable transit (MCT) and fire seal sleeves Installation in ON SHORE and OFF SHORE hazardous area.
- HVAC Power and control systems
- IR and continuity test of LV and Control cables and HI-POT test of MV and HV cables.

## INSTRUMENTATION

- Installation, termination/wiring, testing and commissioning of MOV Switch racks, MOV's and ESD's at Block Valve Stations.
- Installation, termination, testing and commissioning for Fire & Gas equipment like FDI, GDF, GDT, Sounder, Beacons and MAC's, Heat Detectors, Smoke Detectors and Hydrogen Detectors.
- BPCS, SIS and FGS Systems Cabinet erection cable glanding and termination
- Telecom, PAGA and CCTV systems Cabinet, instrument installation, wiring, Loop checking and testing commissioning
- Firefighting system & Fire Suppression system
- Installation of process Instruments such as FT, TT, PT, LT and Junction boxes, fabrication and installation of cable tray and various kinds of FIRE & GAS and INSTRUMENT panels.
- Cathode protection system installation, testing and commissioning of cathode protection CP system.
- Calibration and loop checking of F&G and Process Instruments and preparation of loop folders. IR and Continuity of F&G and Instrument Cables. Supervising for the Splicing of Fiber Optic Cables.
- Installation of instrument air tubing and Impulse testing of air lines.

## **OPERATION & MAINTENANCE SERVICES**

- ❖ **General Plant Maintenance**
- ❖ **Shutdown Maintenance**
- ❖ **Preventive Maintenance**
- ❖ **Refurbishing the Equipment's**
- ❖ **Operation of Electrical & Instrumentation System.**

## FUTURE

We, in our short history, with our passionate, zealous, and committed team have achieved and emerged as a competitive support service provider and are striving to escalate the level beyond satisfaction and contentment of our clients.

We will always aim for the highest standards in all areas. We know that with our focus on people development, quality, safety and customer service, we're ready to ensure a prosperous future for our employees and clients.

For us, sustainable development is simply a commitment to integrate economic, environmental and social objectives into both daily business decisions and planning for the future.

We are making continuous progress in the area of sustainable development and our advancements and partnerships with business, government and non-governmental agencies will one day establish commercial viability for these technologies.

The road of sustainable development is a long one. However, we at BOSTON CONTRACTING Support Service firmly believe that our commitment to innovation will permit us to accelerate quickly down this road. As we do so, this report and other Kaf Tech Support Service communications will continue to provide insights into the progress we are making.

**Thank you**
